There have been allegations and counter-allegations of mismanagement of funds of the company. Members want to remove the Managing Director of the company. Optimum Construction Limited had ten (10) members on its Board of Directors at incorporation in July 2014. After the Annual General Meeting (AGM) in 2015 eight (8) of the Directors of the company were appointed to fill the casual vacancy.

During the 3rd Annual General Meeting held on August 30, 2016, the Chairman introduced another item in the Agenda, which he stated to be retirement Of Directors, in accordance with extant law.

Otunba Kola Gbedu, one of the earliest appointed Directors interjected and cautioned the Chairman to stop pointing at him, as the rule does not affect him, having being a founding Director of the company. The Chairman further advised the newly appointed directors to confer among themselves and select those who would join in the retirement, otherwise they should all step down. When they stepped out, the newly appointed Directors, Okey Aziz was asked to accept to retire, being the youngest among them. He vehemently rebuffed their suggestion, and they returned without reaching an agreement. Rather, they insisted that they reserve the right to be re-elected automatically, even after retirement at the same Annual General Meeting.

Amidst the controversy, Haji Bunmi Shokoyin, a shareholder, indicated that she would be recommending two (2) Directors to replace retiring ones. The Chairman overruled her, and stated that it was the prerogative of the Chairman to nominate candidates to replace the retiring Director and that, as the Officer, he was not affected by the retirement rule.

The meeting was thrown into confusion. You have been consulted for the resolution of the legal issues:

(a). (i) Advise the company on the application of the retirement rule on the Directors of the company, indicating how many of the Directors, and who in particular, would be affected by the rule.

(ii) Examine the contention of Ounba Cbedu that he would not retire being a founding Director of the company.

(b)(i) Outline the circumstances that may affect a Director's automatic election upon retirement at an Annual General Meeting.

(ii) How are the first Directors and additional Directors appointed? What constitute the ordinary business of an Annual General Meeting?

(c). (i) What Consequential records/returns are kept and delivered to the Corporate Affairs Commission upon change of Directors?

(ii) Examine the propriety of Chief Greg Woko, occupying dual position as Chairman/Chief Executive Officer in the company, under the code of Corporate Governance 2013.

QUESTION 4:

A.

Conditions precedent to the successful issue of Federal Govt (sovereign) bonds are:

- i. The feasibility report on the specific project to be financed
- ii. The total loan outstanding including the proposed bond shall not exceed 50% of the annual revenue of the issuer (in this case the Federal Government) for the preceding year.
- iii. Publication in a gazette

- iv. The internally generated revenue of the issuer shall not be less than 60% of its total revenue for the preceding year
- v. Creation of sinking fund
- vi. Investment in the bond issue not backed by an irrevocable letter of authority shall be restricted to qualified institutional investors and high net worth individuals as defined in the rules.
- vii. The guarantor's rating shall not be below investment
- viii. In addition to the issuer's internally generated revenue, the issuer shall provide a third party guarantee from a bank, insurance company, Supranational institutions, international financial institutions or any other acceptable to the commission to cover payment of the principal and interest in the event of default
- ix. The guarantor shall be the primary banker of the issuer for the purpose of its IGR (internally generated revenue) through the tenure of the debt issue
- x. The Redemption shall not exceed 25 years
- xi. Registration with SEC

Identification of areas of seeming conflict.

Section 251(1)(C) Constitution of the Federal Republic of Nigeria 1999 (as amended) conferred exclusive jurisdiction on the Federal High Court in relation to an action or proceeding arising from the operation of the Companies and Allied Matters Act or any other enactment replacing that Act or regulating the operation of companies

incorporated under CAMA. On the other hand, section 284 1SA conferred exclusive jurisdiction over capital market disputes on the Investment and Securities Tribunal.

Secondly, **Section 251(1)(r) Constitution of the Federal Republic of Nigeria 1999 (as amended)** conferred exclusive jurisdiction on the Federal High Court in relation to an action or proceeding for a declaration or injunction affecting the validity of an executive or administrative action/decision by the Federal Government or any of its agencies. However, by section 284(1)(a) (i)-(iv), the Investment and Securities Tribunal has the exclusive jurisdiction to hear and determine a decision of the Securities and Exchange Commission (which is an agency of the Federal Government) in the operation of the Investment and Securities Act between the commission and other capital market operators and self regulatory organisations.

Therefore there is an apparent conflict between the jurisdiction of IST and Federal High Court (FHC). The resolution lies in using the transaction to determine whether to file the action in FHC or IST. Capital Market transaction and related matters should be confined to the IST.

(C) The head Protective reliefs available to minorities in Nigeria under CAMA:

1. Reliefs for Members' Direct action (personal action)
2. Reliefs for Representative action
3. Reliefs for Unfairly Prejudicial and oppressive conducts

4. Reliefs for Derivative action

5. Reliefs for Investigation of Company's affairs

1 mark each

D. The options available to them are:

1. Arrangement on sale

2. Purchase and assumption

Arrangement on sale because the company can no more operate legally and so should be liquidated to enable the members use the proceeds to invest in shares of an operational bank in the ratio of their shareholding in New Generation Bank Plc

Purchase and Assumption because the company is now moribund (inoperational). Therefore, exploring this option will enable a viable Commercial bank to purchase the company's assets and assume its liabilities while its members will now hold shares in the purchasing company.
